

Medical Supply Ministry
in partnership with Children of Abraham
pack container of medical supplies for
Ganta Hospital, Liberia

Ganta Hospital was destroyed in the recent uprising in Liberia, but has been rebuilt and is now expanding.

Our team worked diligently to support this facility, which is located in a largely rural area within the interior of the country.

Mohammad, Sam and Yousef sort donations to prepare for the next shipment to Iraq.

Kathy Skaro along with her son, Stephen, and daughter, Stephanie, work with a new friend from the Islamic Center to insulate the medical equipment before packing it.

TEAM UNITED! The packing team consisted of people of all ages and from various faiths including Muslim, Methodist, and Catholic.

Gerard Skaro and Ronnie Previs assist Bob Brown, loadmaster, to maneuver one of many hospital beds into the container.
